PRESIDENTS CORNER

We had a good outing in January. The weather was very fine and the outing was well attended. We have quite a number of new members and they are anxious to get started.

The February outing looks to be even better as we are having a dig with a backhoe and a dry washing contest. I look to be there and if you see me please introduce yourself. At the end of the dig, the holes dug by the backhoe (pursuant to our “Notice of Intent”) will be filled in. We take pictures which are signed and dated, so that if we are questioned by the powers that be, we have proof that we complied with the regulations. As you all know we cannot use mechanized equipment to dig any holes without a “Notice of Intent” and the penalty on the Club is severe if we violate these rules.

On that same note, we received a communication from the Prescott National Forest of a problem on a claim that will require attention, specifically unfilled holes. We have a list of volunteers to assist in claims maintenance and corner marking, but we really need someone to run and oversee the operation. I will speak about this at the next General Meeting and ask if one or more persons would step forward. The job is not that difficult as it really consists of directing work by the volunteers for a few hours and then prospecting for the rest of the day. I think the Board can be persuaded to pay for a lunch for the crew. In addition, anyone taking part will pick up some valuable information on prospecting from the others present. Please contact the RRPC office if you’re interested. Again, it’s not necessary to oversee all the claims maintenance; overseeing on a few select jobs would be a big help to the club.

Another matter has been brought to the attention of the Board and that is the issue of trash. This falls into two categories. First, the trash that people leave and the second is the metal scrap that we find when metal detecting. I try to clean up both and pack out at least as much as brought in. Some persons, not club members, just use our claims to dump trash. If you see anyone doing this you may remind them that this is a mining claim and not a trash dump. Do not be confrontational, but do get information such as a license number of the vehicle and a cell phone picture if possible without any risk to you and then give that information to the Board. We will act upon it to the best of our ability, but the authorities do not always give it the priority we would like. However, we still want to keep the claims as trash free and with holes filled as we have the legal obligation to perform these tasks. See you next month and be safe out there.

Dredge Report Due

The annual dredge report that the club is required to submit to the Army Corps of Engineers is due in March. At the February meeting I will be handing out survey forms to anyone who has done any dredging on our claims from April 22, 2011 to February 15, 2012. The form asks for claims dredged, approximate number of man hours, and approximate cubic yards of material. Please be as accurate as you can remember.

Thank you.

2012 Plan of Operations Letter

The club’s Plan of Operations for our claims within Prescott National Forest has been extended for 2012. Please remove last year’s extension letter titled 2011 Extension PNF Plans of Operations, dated Dec. 20, 2010, from your map pack. Insert the renewal letter titled 2012 Extension PNF Plans of Operations, dated Jan. 13, 2012, that is enclosed with this newsletter. As always, you must have these documents in your possession whenever you are working our claims. Also, please remember to fill in your holes before you leave the claims. This is a condition that we must comply with in order to retain our Plan of Operations.

Thank you.

Come One, Come All - Annual Assessment Outing
– February 18, 2012
Map #12, Cass #6 Claim

We are in the process of organizing our annual Claims Assessment. This year we will revisit the Morristown area. In the past some of the teams have done very well in some of our test holes. We have never gone back to follow the gold. This year we will. We need the assistance of those successful team members that remember where the gold was good so we can punch a new hole near by. We can also use the help of those that know where the gold was not so good so we can avoid that area. We will do our best to put our holes in the best areas. But, there is no guarantee. If you already know where you want your hole dug then let me know. If you don't know where you want to dig we'll do our best to select a good site for you.

For those members that have never been to an assessment here is what we do. The day before our assessment we will dig holes with a backhoe on one of our claims. These holes will be off limits to any prospecting until the day of the assessment. Team leaders will select a hole to work the morning of the assessment. When their hole is selected each team will be allowed to set up one large dry washer and they can start processing the material. Team members will be allowed to use whatever tools they wish (Vacuums, metal detectors, etc.) but only one large dry washer. We normally start the drawing for the holes at 8:00 a.m. and we stop the assessment at 4:00 p.m. All Gold that the teams recover will be split with the team members or given away as the team wishes. After the assessment we normally have a gold raffle.

The holes will be left open for anyone to prospect in until noon the following day. After noon we use the tractor to fill in each hole and recover the area the best we can. We will have porta potti’s out there but you must bring your own food and refreshment. Also bring your own gloves, sunscreen, or anything else you might need.

We have a team that is made up of women (the Rockettes) that always do well. They don’t always have the best spot to dig in but their secret is teamwork. I’ve seen some teams start to argue about the best way to setup a dry washer and soon their teamwork falls apart. You can’t recover any gold unless you put dirt in the dry washer. The more you process the more likely you are to do well. You can put your own team together, pick a team to be on, or just sign up and we will assign you to a team.

We are looking to have our Assessment on February 18th. It will be held on the Cass claims. Please let me know if you have a large dry washer you are willing to let a team use. We will have signup sheets for teams at our general meeting or you can call or e-mail me at home at 623-388-6682. My e-mail address is: mordorica1@cox.net.

Thank you and we hope to see you there, -- Al Ordorica

Take notice in the outing pictures who seems to be doing all the work. The ladies of course. The assessment dig in February will be a challenge to all the men to show well as the ladies will have a team and you can bet there will be a lot of dirt flying and very little visiting other teams, so men this is fair warning your bragging rights are at stake.
